### SECTION 4: FIRST AID MEASURES

Eyes: Check for and remove any contact lenses. In case of contact, immediately flush eyes with plenty of water. Get medical attention if symptoms occur. Skin: Wash with soap and water. Get medical attention if symptoms occur.

Ingestion: Do not induce vomiting. Never give anything by mouth to an unconscious person. Get medical attention if symptoms occur.

Inhalation: If inhaled, remove to fresh air. If not breathing, give artificial respiration. Get medical attention if symptoms appear.

# SECTION 5: FIRE FIGHTING MEASURES

Flash Point: > 200°F (>93C) (Setaflash) LEL/UEL: NA (% by volume in air)

Extinguishing Media: Use an extinguishing agent suitable for the surrounding fire..

Fire Fighting Instructions: Remove all ignition sources. Closed containers may rupture due to build-up of pressure when exposed to extreme heat. As in any fire, wear self-contained breathing apparatus (pressure demand, OSHA/NIOSH approved or equivalent) and full protective gear.

### SECTION 6: ACCIDENTAL RELEASE MEASURES

Large Spills: Remove all sources of ignition. Provide adequate ventilation. Put on appropriate personal protective equipment. Dispose of via a licensed waste disposal contractor. Note: see section 1 for emergency contact information and section 13 for waste disposal information. Do not flush to sewer. Prevent material from entering storm sewers, ditches that lead to waterways and ground.

Small Spills: Provide adequate ventilation. Put on appropriate personal protective equipment. Absorb spill with absorbent material, then place in a chemical waste container for proper disposal.

#### SECTION 7: HANDLING AND STORAGE

<u>Handling</u>: Put on appropriate personal protective equipment (see section 8). Eating, drinking and smoking should be prohibited in areas where this material is handled, stored and processed. Workers should wash hands and face before eating, drinking and smoking. Persons with a history of skin sensitization problems should not be employed in any process in which this product is used. Do not get in eyes or on skin or clothing. Do not ingest. Use only with adequate ventilation. Wear appropriate respirator when ventilation is inadequate.

Storage: Store in accordance with local regulations. Store in original container protected from direct sunlight in a dry, cool and well-ventilated area, away from incompatible materials and food and drink. Keep container tightly closed and sealed until ready for use. Do not store in unlabeled containers. Use appropriate containment to avoid environmental contamination.

### KEEP OUT OF REACH OF CHILDREN.

### SECTION 8: EXPOSURE CONTROLS, PERSONAL PROTECTION Exposure Guidelines:

Exposure Guidennes.			
CHEMICAL NAME	United States Exposure Limits	Canada Exposure Limits	Mexico Exposure Limits
Silver	NIOSH REL (United States, 12/2001).	CA Alberta Provincial (Canada, 10/2006).	NOM-010-STPS (Mexico, 9/2000).
	TWA: 0.01 mg/m <sup>3</sup> , (as Ag) 10 hour(s).	8 hrs OEL: 0.1 mg/m <sup>3</sup> 8 hour(s).	LMPE-PPT: 0.1 mg/m <sup>3</sup> 8 hour(s).
	OSHA PEL (United States, 11/2006).	CA British Columbia Provincial (Canada, 7/2007).	-
	TWA: 0.01 mg/m <sup>3</sup> , (as Ag) 8 hour(s).	TWA: 0.01 mg/m <sup>3</sup> , (as Ag) 8 hour(s).	
	ACGIH TLV (United States, 1/2008).	STEL: 0.03 mg/m <sup>3</sup> , (as Ag) 15 minute(s).	
	TWA: 0.1 mg/m <sup>3</sup> 8 hour(s).	CA Ontario Provincial (Canada, 3/2007).	
	Form: Metallic form	TWAEV: 0.1 mg/m <sup>3</sup> 8 hour(s).	
		CA Quebec Provincial (Canada, 12/2006).	
		TWAEV: 0.1 mg/m <sup>3</sup> 8 hour(s).	

Work/Hygienic Practices: No special ventilation requirements. Good general ventilation should be sufficient to

control worker exposure to airborne contaminants. Wash hands, forearms and face thoroughly after handling chemical products, before eating, smoking and using the lavatory and at the end of the working period. Ensure that eyewash stations and safety showers are close to the workstation location. Wear safety glasses with side shields (or goggles) and rubber or other chemically resistant gloves when handling this material. Wear a lab coat where required.

sinclus (or goggles) and rubber of other enemicarly is	constant gloves when handling this material. Wear a la	o cout where required.

## SECTION 9: PHYSICAL AND CHEMICAL PROPERTIES

 Physical State:
 Silver/gray Paste

 Odor:
 Amine

 pH: NA
 Vapor Pressure:

 Vapor Pressure:
 <1.0 mmHg @ 20°C</td>

 Percent Volatile:
 < 0.5%</td>

 Vapor Density:>1
 (Air = 1)

### SECTION 10: STABILITY AND REACTIVITY

<u>Stability:</u> This product is stable. <u>Conditions to Avoid:</u> Excessive Heat. <u>Incompatibility:</u> Avoid oxidizing materials, acids and alkalis. Amines. Mercaptans. <u>Products of Decomposition:</u> carbon dioxide, carbon monoxide, halogenated compounds, metal oxide/oxides. <u>Hazardous Polymerization:</u> Will not occur. <u>Conditions to avoid:</u> No specific data.

## SECTION 11: TOXICOLOGICAL INFORMATION

**Ingredients** Silver (metallic) **LD50** <u>(rat) Oral</u> NA

<u>Inhalation</u>: No known significant effects or critical hazards. <u>Ingestion</u>: No known significant effects or critical hazards. Eyes: Irritating to eyes. Skin: Slightly irritating to the skin. May cause sensitization by skin contact.

LC50 (ppm)

NA

(rat) Inhalation

Cancer Information: No ingredients listed as human carcinogens by NTP or IARC Mutagenicity : No known significant effects or critical hazards. Teratogenicity : No known significant effects or critical hazards. Developmental effects : No known significant effects or critical hazards. Fertility effects : No known significant effects or critical hazards.

# SECTION 12: ECOLOGICAL INFORMATION

## **Environmental Impact Information**

Avoid runoff into storm sewers and ditches which lead to waterways. Water runoff can cause environmental damage.

Ingredient name	Species	Exposure	Result
Silver	Daphnia	48 hours	Acute EC50 0.24 ug/L
	Daphnia	48 hours	Acute LC50 14 ug/L
	Fish	96 hours	Acute LC50 0.0062 mg/L
	Crustaceans	48 hours	Acute LC50 15 to 18 ug/L

REPORTING

US regulations require reporting spills of this material that could reach any surface waters. The toll free number for the US Coast Guard National Response Center is: 1-800-424-8802

LD50

NA

(rat) Dermal

Solubility in Water: Very slightly soluble. Specific Gravity: 4.1 Evaporation Rate: <1 (Butyl acetate=1) Boiling Range: Not Available

# SECTION 13: DISPOSAL CONSIDERATIONS

This material and its container must be disposed of in a safe way. Dispose of surplus and non-recyclable products via a licensed waste disposal contractor. Disposal of this product, solutions and any by-products should at all times comply with the requirements of environmental protection and waste disposal legislation and any regional local authority requirements. Disposal should be in accordance with applicable regional, national and local laws and regulations.

### SECTION 14: TRANSPORTATION INFORMATION

#### Air and Ground Shipments:

Adhesives, sealants

Not Regulated

# SECTION 15: REGULATORY INFORMATION

SECTION 313 SUPPLIER NOTIFICATION

This product contains no toxic chemicals subject to the reporting requirements of Section 313 of the Emergency Planning and Community Right-To-Know Act of 1986 (40 CFR 372).

This information should	be included on all	MSDSs copied and distribution	uted for this material.

#### **SECTION 16: OTHER INFORMATION**

Normal ventilation for standard manufacturing practices is usually adequate. Local exhaust should be used when large amounts are released.

To the best of our knowledge, the information contained herein is accurate. However, all materials may present unknown hazards and should be used with caution. In particular, improper use of our products and their inappropriate combination with other products and substances may produce harmful results which cannot be anticipated. Final determination of the suitability of any material is the sole responsibility of the user. Although certain hazards are described herein, we cannot guarantee that these are the only hazards that may exist.
